STANCOR DUPLEX CONTROL

CB Series 2002

The Stancor CB Series 2002 Pump Control System provides industrial / commercial customers with a reliable means of controlling an alternating Duplex Pump System in Water Sewage Installations. The alternating of pumps extends pump life by reducing wear on the individual pumps.

Applications:

- Lift Stations
- Construction
- Mining
- Utility / Power Plants
- Irrigation Systems

Features & Options:

- NEMA 4X enclosure watertight, dust-tight and corrosion resistant enclosures
- Circuit breaker (magnetic / hydraulic overload type)
- Motor contactor (direct on-line electromagnetic type)
- Control transformer
- Three Stancor float switches
- HOA selector switch
- Run light
- Alternator
- Alarm light & horn (optional)
- Horn silence switch (optional)
- Fourth float switch for alarm & horn (optional)
