ACCESSORIES

MODEL SB-25

- Rugged fiber-reinforced thermal plastic body
- Non corrosive construction for long life
- Built-in discharge stand for stability and non-clog operation in sediment and sand
- Reliable sealing system
- Strong 1/4 HP motor with thermal overload protection
- Perfect for basement sump tanks

MODEL SB-12

- Super tough thermal molded pump body (Polypropylene) with a screened bottom inlet
- Mechanical and secondary lip seals, thermal overload protection for maximum motor life
- Fully corrosive resistant construction
- Compact and lightweight
- Pumps down within 1/10" of surface
- Great for basement and pool covers where sump is not available
- Complete with 1/2", 3/4" and 1" hose adapters

Optional Equipment:

new!

**Avenger SSD
200
2 HP
dewatering
pump for utility
vaults, mining,
construction
and other
applications**

**Avenger SS
Series
Constructed of
316 stainless
steel. Models
up to 7.5 H.P.**

- Automatic version available with piggy back float or built-in float

General & Electrical Specifications:

[Head / Flow Graph](#)
