OIL-MINDER

CONTROLS

ACCESSORIES

**MODEL SL-75**

**Low-Suction Submersible Utility and Sump Pump**

**Features and Construction:**

- Double Stainless-Steel Casings
- Double mechanical seals run in separate oil-filled compartments
- High torque motor
- Pumps down to 1/12"
- Thermal overload protection

**Applications:**

- Ideal for any application requiring low-level dewatering

**new!**

**Avenger SSD  
200  
2 HP  
dewatering  
pump for utility  
vaults, mining,  
construction  
and other  
applications**

**Avenger SS  
Series  
Constructed of  
316 stainless  
steel. Models  
up to 7.5 H.P.**

**General & Electrical Specifications:**

	<b>SL-75</b>
<b>Pump Data:</b>	
Pump Discharge Size	2"
Impeller Type	semi-open
Strainer Opening	1/4"
Weight (lbs.)	26
Maximum Head (ft.)	33'
Maximum Flow (gpm)	63
<b>Motor Data:</b>	
HP	.75
Voltage V (current FLA) 1 phase	115 / 230 (6 / 3)
Rated Speed RTM	3450
Insulation Class	F
<b>Construction Materials:</b>	
Outer Casing	stainless-steel

<b>Motor Housing</b>	stainless-steel
<b>Impeller</b>	cast iron
<b>Diffuser</b>	cast iron / rubber liner
<b>Fasteners and Strainer</b>	stainless-steel
<b>Mechanical Seals</b>	silicon carbide vs. sil. carbide
